

Breezy Enterprise Edition

Breezy for SECTOR

Secure mobile printing for SECTOR-based workspaces

Breezy for SECTOR gives customers the flexibility and end-to-end security they need to perform secure mobile printing across users, devices, applications, content, data, email and networks – from wherever the user is accessing company data. The SECTOR Network consists of popular business apps that have undergone a wrapping process to add advanced security features, functionality, and IT management and reporting capabilities. Breezy helps complete data security during the critical “last mile” to the journey from digital to print. Breezy liberates your workforce by giving them an easy and secure choice for connecting to their existing print infrastructure.

Breezy for SECTOR is:

Secure

- Encrypts files on the device before transferring via secure channels to the intended printer.
- Enables regulatory compliance by keeping encrypted content secure while at rest or in transit from initial file to final print release.
- Includes robust detailed auditing tools including reports on who printed what, when, and where.

Scalable

- Connects all your enterprise printers globally, regardless of type or manufacturer.
- Supports thousands of users and printers with both Cloud and On-Premise deployment available.

Flexible

- Supports BYOD by delivering native apps for iOS and Android, while ensuring data is secured and contained by SECTOR-based workspaces.
- Integrates with most cost-accounting and secure release solutions.
- Powers the addition of a print button to internal apps.

Easy to Use

- Prints a variety of document types, including Microsoft Office documents, PDFs, pictures, emails or Rich Texts.
- Enables a user to easily find their favorite printers and print with a few clicks.

The world's leading secure mobile print and fax platform. Whether roaming the halls of your office or traveling the world for work, print or fax securely when and where you need.

SECTOR® Network
Secure Enterprise Apps

The SECTOR Network is a secure app ecosystem endorsed by leading service providers worldwide, allowing users to securely access content.

Secure SECTOR Integration

Getting started with Breezy is simple

Breezy's enterprise connector sits on corporate print servers, making it simple to deploy and easy to use. Breezy for SECTOR requires no hardware or additional driver installations. It offers the most secure printing solution in the market by encrypting each document on the device. Through a web dashboard, you can benefit from centralized IT management with full administrative control and visibility. Breezy is used by medium and large enterprises with deployments as large as 25,000 employees.

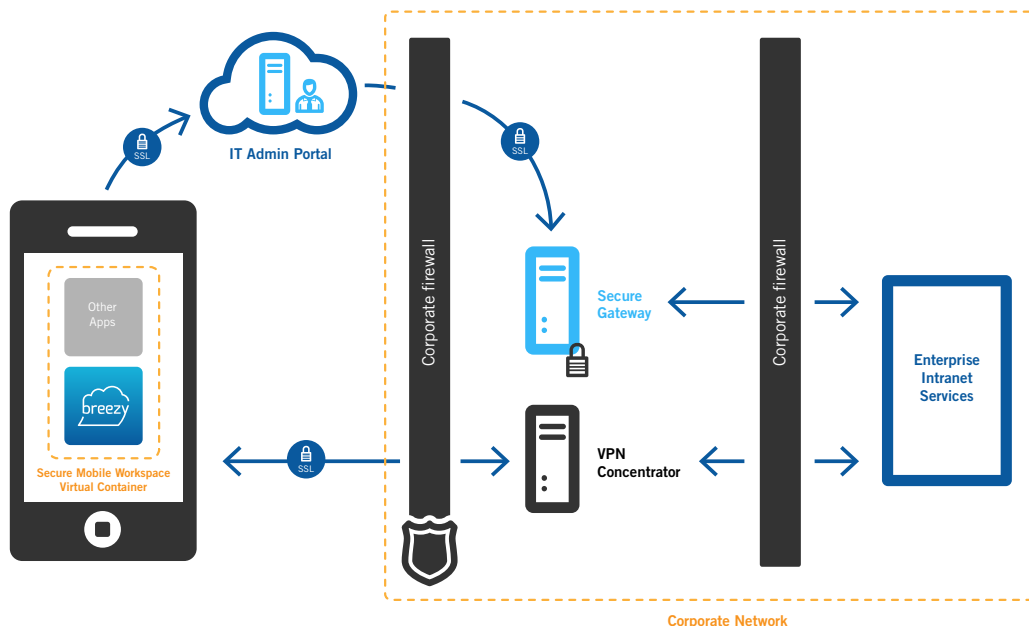

True Mobility

Whether roaming the halls of your office or traveling the world for work, Breezy ensures you can securely print or fax when and where you need to.

Breezy Partner Network

A global network of thousands of hotels, airports and print service providers that enables users to print securely when on the go.

SECTOR-based EMM solution Integrated with Breezy Enterprise Architecture

SECTOR Network Apps:

SECTOR Network apps are managed, secured and accessed within SECTOR-based enterprise workspaces. Mobile management solutions offering SECTOR Network apps to their enterprise customers include:

- AT&T **Toggle®**
- BlackBerry® **Secure Work Space**
- Deutsche Telekom **SAMBA!**

*This illustration represents a typical architecture but may vary significantly based on the choice of OEM and deployment. Please check with your Breezy representative for more information.
