Breezy for Good Technology™

Secure mobile printing and faxing for your Good® environment.

Breezy for Good empowers employees to print and fax securely from their Good-enabled mobile devices while in the office, at home or on the road. Whether your workforce is spread acorss three floors, three buildings, or three continents, Breezy for Good provides the flexibility to print or fax while on the go—and ensures that information secured within your Good environment will remain secure during the critical "last mile" of the journey from digital to print. To liberate your workforce and your existing print infrastructure, go mobile with Breezy.

Secured by Good Dynamics

Empower your users to print and fax from any location to any printer while enjoying the ease of use and security features that your entire enterprise has come to know and trust from Good. Breezy for Good is a secure, flexible, and Good Dynamics-enabled printing platform that makes it possible.

Breezy for Good is:

Secure

- Encrypts files on the device before transferring via secure channels to the intended printer.

- Enables regulatory compliance by keeping encrypted content secure while at rest or in transit from initial file to final print release.

* Includes robust detailed auditing tools including reports on who printed what, when, and where.

Scalable

- Connects all your enterprise printers globally, regardless of type or manufacturer.

- Gives your users access to the Breezy Partner Network—a global network of thousands of hotels, airports, and print service providers—to locate secure print locations via GPS while on the go.

Flexible

- Via the Breezy Beacon, enables Apple AirPrint for iOS devices across enterprise subnets.

- Supports BYOD by delivering native apps for iOS and Android, while ensuring data is secured and contained by Good.
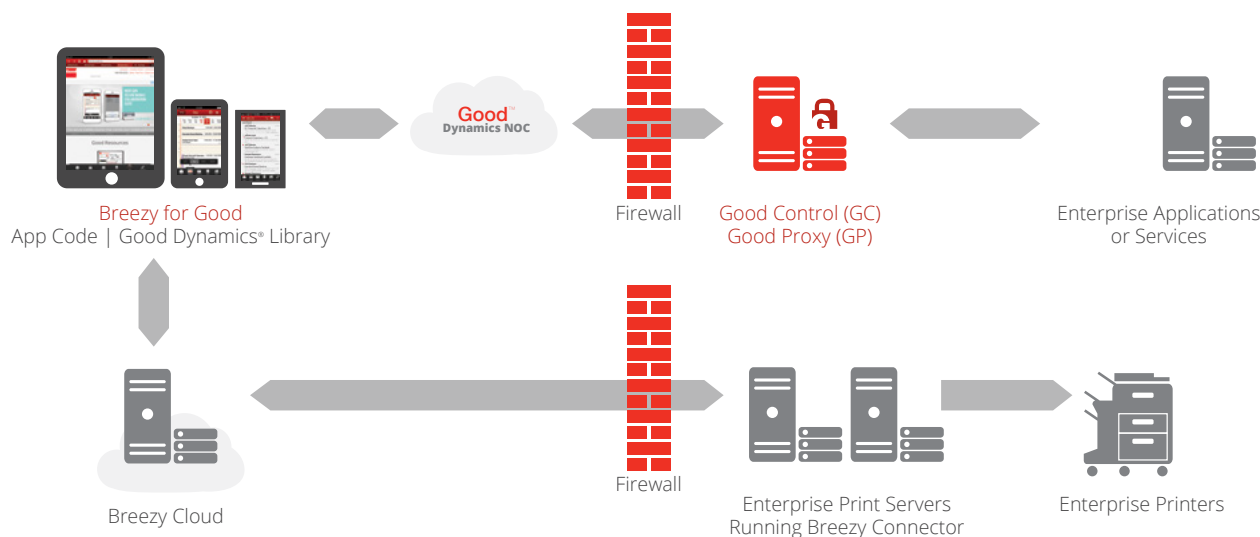

Download Breezy for Good™
Download the Breezy for Good client for free from the Apple® App Store℠ or Google Play™.

Get started with no hassle

Simple to deploy and easy to use, Breezy for Good can be up and running in minutes with no consultants required. It offers strong authentication, identity federation, and single sign-on (SSO) integrated functionality. Through a web dashboard, you can benefit from centralized IT management with full administrative control and visibility.

Why Breezy for Good?

FEATURES OF THE JOINT SOLUTION	RELATED BENEFITS
Provides Data Loss Protection (DLP)	Enables restriction of copy-and-paste privileges and email access
Offers Control of App Functionality and Remote Access	Allows an IT admin to control access or remotely wipe data in real time, which is especially useful when a device is lost or stolen
Integrates with Good Dynamics Security	Ensures that enterprise data will remain secure by leveraging Good's market-leading security architecture to deliver on-device application security and control—using SSL/AES-256 bit encryption—within the Good Dynamics ecosystem
Uses Good Dynamics Appkinetics™ Technology	Lets users access approved content across Good Dynamics apps and ecosystem
